**EURO-PAR**
CONFERENCE 2019

THE SCOPE OF TOPICS AT EURO-PAR

Euro-Par is the prime European conference covering all aspects of parallel and distributed processing, ranging from theory to practice, from small to the largest parallel and distributed systems and infrastructures, from fundamental computational problems to full-fledged applications, from architecture, compiler, language and interface design and implementation, to tools, support infrastructures, and application performance aspects. Euro-Par's unique organization into topics provides an excellent forum for focused technical discussion, as well as interaction with a large, broad and diverse audience.

We invite submissions of high-quality, novel and original research results in areas of parallel and distributed computing covered by the List of Topics.

ARTIFACT EVALUATION

Authors of accepted papers will have the option to submit materials for Artifact Evaluation. Artifacts will be reviewed by a separate committee. Papers that go through the Artifact Evaluation process successfully will receive a seal of approval.

CHESS-TIMER TALKS

Authors of accepted papers will have the option to propose an interactive, chess-timer talk at the conference, allowing 20 minutes of solo speaking time and 15 minutes of discussion time. During the presentation, the audience will be encouraged to interact with the speaker asking questions and making comments. A committee will select a limited number of presentations among those proposed with this modality.
